## Profile

Deanna Trust receives a precious boon as she stands at any threshold. Nature reveals her secrets to her and whose beauty and healing Deanna expresses by creating soul-nurturing sanctuary we so richly deserve.

A transcendental meditator since 1973, and a master of environmental harmony, Deanna's work is an unbridled expression of her love of color and beauty through the eyes of consciousness. Deanna works with Rudolf Steiner's Color Theory respecting color as a powerful spiritual – creative substance. She places it intuitively working with the vibrational organization of the spatial environment and occupants in home or office.

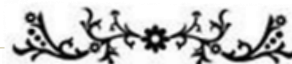

Deanna's list of prestigious clients include prime real estate, world-renowned talents, entertainers, musicians. Her Feng Shui extends beyond tour buses, performances, stages and creations.

Her Real Estate portfolio alone is a testament to her expertise in transforming the purpose and value of homes and estates through color and Feng Shui. She is a masterful and much sought after speaker for national conferences on spaces.

**Be entertained** by Deanna's lively and riveting presentations.

**Be transformed** at her salons where magic reigns. Deanna is often called "Corinne Dunbar" of New Jersey for her Salons and Teas at Casterline Inn. Her Impressionist and Victorian Teas draw a packed house.

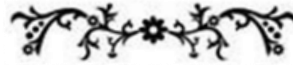

***Be enraptured with your highest potential as an expression of Nature and her boundless beauty.***
